

OMG BRAND STORY

TESTIMONIALS FROM CLIENTS

Whoa! Don't take our word for it —
here's what our clients have to say!

"Olivia is amazing! I am a very deep person and my brand has many layers. Olivia picked up on every bit of it and helped me get real clarity around brand messaging."

- Kristi V.

"The most eye-opening impact of working with Olivia was her identifying how the small inconsistencies in my brand communication were holding my brand back from leveling up. She was able to take the pieces of my story and bring them together cohesively in a way that communicated compassion and authority while facilitating connection with my audience. The connection piece is what I had struggled to incorporate for so long, and eventually, I stopped trying, but the brand assessment Olivia gave me makes it extremely easy for me to included connection points in all of my communications. I would highly recommend working with Olivia, it's literally one of the best investments I have made in my business!"

- RJ C.

"Olivia helped me really identify what elements belonged in my brand story. I had a few brand story ideas before I came into this, but I found so much clarity with Olivia. I put my learning into action right away by including my brand story elements in my client communications. This will be a game-changer for me!!"

- Morgan W.

"OMG! Olivia really helped me take what I thought was a boring story and find the magic. I realized that there are so many parts to my journey that I can share to help me connect with my audience! I am grateful for the opportunity to work with Olivia and will be applying what I learned to my business right away!"

- Yasmine Y.

"Olivia is amazing! I am a very deep person and my brand has many layers. Olivia picked up on every bit of it and helped me get real clarity around brand messaging."

- Kristi V.

"I think that Olivia has a gift of taking what is seemingly random information and running a thread of continuity through it. She was very personable and full of energy. I loved working with Olivia. Her personality is infectious. She really made my story sing as she found a way to connect the different parts of it seamlessly."

- Stacie B.

We, as a team, thoroughly enjoyed working with Olivia! Latrina Walden™ Exam Solutions was launched in November, 2018, and our company has not slowed down since. In our growing pains, we had to re-brand our image, migrate the business to a different platform, as well as execute some major projects in a span of a couple months. We had such a full plate!

With the guidance and support of Olivia and her team, we were able to tackle each project with confidence, truly taking our company to the next level. Olivia did this by creating a structured and detailed timeline with the team so there was no confusion when a task needed to be completed. She provided project management tools that we've implemented into our business practices, as well as helpful feedback when there were hiccups in the process.

What stuck out most though, was her ability to emphasize that at the core of everything, we already had the grit and love for our work that we needed to succeed as a company - we just had to polish some things to make it in the big leagues.

Olivia's enthusiasm for us to accomplish our goals really seeped through in every Zoom and phone call, and we truly appreciate her expertise in the branding world. We look forward to working with her again in the future because even though it's only been four months since we completed our time together, there's already tangible results of progress. To that, we say cheers to all the growth and blessings to come!

- Janiece J.
